As per the Preliminary Amendment of 2 June 2006, claims 8-9, 11, 15, 17, 19, 22 and 29-32 have been canceled. Claims 1-7, 10, 12-14, 16, 18, 20-21 and 23-28 are pending and presently under consideration in this application.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

While the prior art would make obvious the use of some of the components as claimed by applicants, one or the other of the osmium dopant compound or the merocyanine dye, said art does not, in fact, disclose or teach the present inventions of independent claims 1, 23 and 24, each of which are characterized by the unique combination of both the osmium dopant compound and the merocyanine dye.

Applicants have demonstrated herein the specification, as summarized in Tables 1 and 2, respectively on pages 20 and 21, that significant advantages with respect to speed, sensitivity, contrast and stability are achieved with the instant inventions characterized by the aforementioned combination of components. The inventive samples containing the unique combination, i.e., both the osmium compound and the merocyanine dye, have no or minimal increases in speed (sensitivity) and contrast over time, or upon aging, versus the comparative samples containing only one of the two components.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
